

## Spiritual and yoga CV Mireille Goedkoop

### Yoga background

My yogapath started in 2001. Since then I have been practising and studying with many teachers around the globe. I tried many styles of yoga, experienced different teachers, went to workshops and did several teacher trainings (300hour Yoga Alliance- Flow style and Ayurvedic yoga).

When people ask about my yoga style, I find it hard to describe. As it is the 'Mireille-vibe' that makes it mine. I am bringing all my experiences into my classes, not only about asanas, but also about energy patterns (Prana Vayu), meditation, energy & spiritual healing, Buddhism, Ayurveda principles, life...it all blends together. While teaching yoga I feel very much guided by the spirit world. Which allows me to do what is really necessary in the moment for the people I'm working with. The classes are based on flow, of your breath connected to your movements.

### Teaching background

Since 2013 I had my own yoga studio in Spain for 4 years and I lead yoga retreats under the name of SoulfulLiving. In Spain, Holland and sometimes in winter in Asia. I teach weekly classes to a diverse public and have a range of private students. My private classes are based on Ayurveda principles. Combining pranayama, meditation, mantra, mudras, asana practice, energy healing and angels cards specifically for the needs and dosha imbalance of my students.

Beside that I offer spiritual teachings, pregnancy yoga courses, workshops and healing sessions.
